The simplest explanation I#39;ve come across comes courtesy of 10bet: In a 3-Way Handicap, the line#129534; is set so that there can also be a draw outcome, giving you 3 potential bets. Handicap (-1): You win#129534; if your team wins the match with a goal difference of two or more.

Handicaps can also be offered in 2-way markets;#129534; this is when the teams are handicapped on the half point line;#129534;, for example, 5.5. When this is done there#129534; is only two possible winners and no draws. This is a much more attractive betting opportunity to the punter. You#129534; can bet on Rugby and get a 50 deposit bonus.
