Authorization issues commonly occur when required permissions are not provided to the service account or user account. The service account needs domain-wide read access.

Authorization errors - IBM : docs : ts_dsm_guide_google_g_suite _authorization_errors

Tips to solve this issue

- 1 Ensure the account number entered is correct.
- 2 Ensure the trading password entered is correct.
- 3 Ensure the server chosen is the one your account uses.
- 4 An MT4 account is not being used in MT5, or vice versa.
